

## **Advertisement for Bidder Prequalification**

Issued February 13, 2026, by the

**Metropolitan Wastewater Management Commission (MWMC)**

**Project Name: Primary Clarifiers & Final Treatment Concrete Repair**

**MWMC Project Number: P80118**

The MWMC invites qualified General Contractors (Prime Bidders) with expertise in concrete structure surface demolition and restoration using repair mortars and epoxy coatings to respond to this Advertisement for Bidder Prequalification. Contractors prequalified under this solicitation will be invited to bid on a multi-phase concrete repair project at the Water Pollution Control Facility (WPCF) operated by the MWMC for wastewater treatment. Project Bid date is anticipated to be May 19, 2026.

Prequalification documents are available for viewing and downloading at the link below, and the application will be available online until the application submission deadline.

**<https://mwmcpartners.org/capital-improvements/invitation-to-bid/>**

Specific questions or necessary clarifications must be submitted in accordance with the prequalification application instructions. Unauthorized contact with City of Eugene, City of Springfield, or Regional Wastewater Program staff or officials concerning this prequalification process will be grounds for disqualification.

**The deadline and manner for submitting applications are found on the cover page of the application documents**

Matt Stouder, MWMC Executive Director
